

BayGrip™ Fast Dry Pressure Sensitive Adhesive

BayGrip™ is a web spray adhesive.

ADVANTAGES

- Very fast drying
- Long lasting high tack (pressure sensitive)
- Moisture and weather-resistant bond
- Will not attack polystyrene
- Full strength achieved in 24 hours
- No ODS (Ozone Depleting Substances)

PRODUCT DESCRIPTION

BayGrip™ Fast Dry Pressure Sensitive Adhesive is an aggressive and fast-drying pressure sensitive adhesive designed to bond to a vast range of substrates and maintain tackiness.

Fabric to Steel

Fabric to Fabric

DIRECTIONS FOR USE

Apply to both surfaces to be bonded, 80% to 100% coverage. Allow enough time (2-4 minutes or until dry to the touch) for the adhesive to become tacky before bonding. Parts should be mated with as much pressure as practical. Normal coverage required with web spray pattern is approximately 80%; however, porous surfaces may need a second coat. Initial bond is strong enough to allow cutting or trimming immediately, although ultimate strength is achieved in 1-3 days.

Notice!!! Do not store at temperatures over 120° F.

HANDLING & STORAGE

- Consult Safety Data Sheet prior to use.
- Do Not store at temperatures over 120°F or below 60°F.
- Avoid exposure to direct sunlight.
- Do not store directly on concrete floor.
- Always test product to determine suitability for your particular application prior to use in production.

PACKAGING

- 650ml (22 oz) Spray Can
