

SkyLiner® Double Faced Tape

Skyliner® Double Faced Tape is a white, two-sided, self-adhesive tape consisting of a PVC-film backing with tackified acrylic adhesive. This double-faced tape is 2" wide and 225 μ (10 mil) thick, and the tape comes in 165 foot rolls. It has excellent high tack and immediate adhesion properties, plus good bonding performance on rough or dusty surfaces. Double Faced Tape is only recommended in install temperatures above -10° F.
